

## UCL Study Diary

Linux Multitasking Field Study

Study ID: 6079/001

Participant email: \_\_\_\_\_

## How to fill this diary

We would like you to make note of the different activities you perform on your computer during the study. Your notes will be used to verify that our machine learning algorithms correctly separated the different activities you perform. For instance, if your activities are 'online banking' and 'writing a report', we will verify that our machine learning algorithm identified two activities, and that each of them contains the files, applications and websites relevant to the activities you declared in your diary.

Your notes don't have to be extensive or extremely accurate. Just write what you're doing in ways that make sense to you. If you think a bit of context is necessary for the researchers to understand, you can use the comment box.

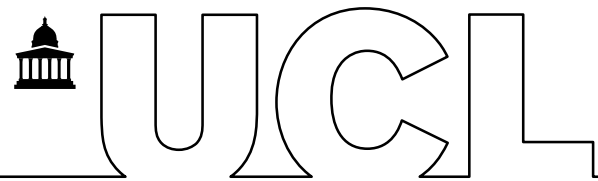

If you are doing something that you would not like us to know about, you can turn off data collection on your computer and write down a "Personal" activity in the diary.

This study is approved by the UCL Research Ethics Committee.  
Study ID: 6079/001

### **Reminder: How your data is processed**

Any personal information you give to us will be processed in accordance with the UK Data Protection Act 1998. It will be used solely for the purposes of the study, and no information shall be published that can personally identify you. Your data will be stored within UCL at all times and deleted within three years of being collected. You can, at any time during the study, contact us to amend or delete the data we collected on you, or to opt out entirely from the study.

## What to do once you filled this diary

If you printed the diary, you should either:

- bring it with you to your next interview *or*,
- scan it and email it to the researchers

If you filled the digital version of the diary, you should:

- email it to the researchers

This study is approved by the UCL Research Ethics Committee.
